The relief will be much less than the railroads have been saying is needed to put them on a good footing. Advances will be made in rates on the higher grades of merchandise in what is known as Central Freight Si Association territory. That will be of benefit to such roads as the Wabash, the Pere Marquette, the Ann Arbor, the Cincinnati, Hamilton and Dayton and others, which, according to an attorney for the Wabash, are to an attorney for the border of bankthe hands of receivers.

It will be impossible to figure the increases in percentage. Some of the proposed rates are flat 5 per cent. increases, but a big majority of them call for additions amounting to more than that comparatively small part of a dollar. Some of them, owing to a rule the carriers made for the guidance of the tariff men, amount to from 20 to 50 per cent.

The Kind You Have Always Bought,

HIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper beam his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfelts and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines.

It is to be regretted that there are people who are now engaged in the mefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfelts, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother's watchfulness.
